

**Product Name :**  
Pipe Printing Machines

**Product Code :**  
EQUP-MC20087-0088

**Description :**

Pipe Printing Machines

**Technical Specification :**

Usage/Application Pipe Print  
Automation Grade Automatic  
Color Printing Yes  
Frequency 0.5 Meter to 25 Meters  
Machine Type Automatic  
Voltage 230 Vac  
Type Automatic

Motorized Coder is a compact, fully automatic PLC based printer for 1 to 4 lines printing PVC / Polyethylene / HDPE / PV pipes tubes, etc. of diameter 20 mm to 200 mm during extrusion process. The message to be printed is very easily composed by just sticking the low-cost rubber / nylon stereos (easily changeable) on to the print wheel. The inking is in the form of rechargeable cartridge, so colour of printing can be changed easily by changing cartridge. The PLC has a bright LED display to set the printing repeat from 0.5 Meter to 25 Meters. It also displays the length of pipe extruded, no. of prints that have taken place the linear speed of extrusion in meters / min. Also, a production length can be set it can give an alarm relay signal after the preset length of pipe has been extruded. (Free accessories include 1 Lit. Blue Ink, 1 Lit. Solvent, 6 mm Flat Rubber Character Set, Double Sided Tape Ink Cartridge). These coders are ideal for Automatic Coding on various types of tubes pipes during their extrusion process or as off-line printers also for manual printing.
