

Product Name :
Cement Mixer and Agitator

Product Code :
EQUP-MC20146-0001

Description :

Cement Mixer and Agitator

Technical Specification :

cement mixer and agitator is a combination of mixer and agitator, it is specially design for continuous cement mixing and grouting in ground/underground engineering. It can fast mix water, cement and additive, then the mixed slurry can be stored into a 700 liters agitator, thus the mixing work can continuously be done.
