

Product Name :
Food Granule Weighting and Packing Machine

Product Code :
EQUP-MC20019-0009

Description :

Food Granule Weighting and Packing Machine

Technical Specification :

Granule weighting and packing machine is suitable for granular products. Such as granule puffed chips, herbal medicine, grains, rice, hardware tools, pill, dried fruits, beans, nuts, salt, sugar, tea, seeds, etc.

1. PLC control, easy to operate and easy to understand High precision electronic weighing, high accuracy
2. All stainless steel structure, easy cleaning, corrosion resistance Artificial bagging, photoelectric induction blanking
3. Each scale is a two vibrator feeding or pneumatic gate feeding, the speed is high, high accuracy
4. More Accuracy-electronic weighing scale
5. Fast Speed — dual vibration feeder
6. Low noise — without mechanical drive
7. Corrosion resistance strong — all stainless steel materials
8. Induction received bags — photoelectric sensor, received on
