

Product Name :
Fixed UAV Jammer

Product Code :
EQUP-MC20281-0002

Description :

Fixed UAV Jammer

Technical Specification :

The system delivers our tried and tested drone jamming capability in a hardened IP67 case for permanent installation onto a building. Like all omni-directional jammers the could cause some interference to other devices, we have addressed this issue by attempting to use as low power as possible to defeat the drone.

Jamming Mode: Expel the UAV Forcing the UAV landing

Working frequency range: 840 - 930Mhz

1550 - 1620Mhz/GPS

2400 - 2500Mhz

5640 - 5940Mhz

Angle of Defence: 360°

Defense Radius: ?1500M

Power Supply: AC100-240V/50-60Hz

Continuous working time: All time

Protection Level: IP67

Operating environment: -40? ~ +55?

Operating Mode: Manual Remote Control
