

Product Name :
Sausage Automatic Double Wire Binding Machine

Product Code :
MM-CHINA11002-0024

Description :

Sausage Automatic Double Wire Binding Machine

Technical Specification :

Using a servo control system, the product length, diameter, production speed, and number of coils can be adjusted arbitrarily on the display.

The fastest speed can reach 800 knots per minute, offering flexible and adaptable operation.

It ensures high production efficiency with relatively low investment costs.

Adaptability to casings: natural casing, protein casing, composite film casing, etc.

High accuracy: Length tolerance is within ± 2 mm per 100 mm.

Casing savings: A product with a length of 125 mm and weighing 38 grams can save about 600 meters per ton of casing.

For a product with a length of 50 mm and weighing 10 grams, the savings can reach about 1600 meters per ton (casing cost is 0.5 yuan).

Compatible with sealing punching machines, high-speed twisting machines, and wire binding machines.
