

Product Name :
Frozen Meat Roll Cutting Machine

Product Code :
MM-CHINA11002-0025

Description :

Frozen Meat Roll Cutting Machine

Technical Specification :

Introduction of Meat Roll Cutting Machine

Our frozen meat roll cutting machine is highly versatile, suitable for cutting frozen meat, fresh meat, poultry, bacon, sausage, cooked meat, root vegetables, and more. It efficiently produces meat rolls, meat cubes, and slices with adjustable thickness settings. Specifically designed for cutting frozen mutton and beef into slices and rolls, this machine is essential for various applications in hotels, food processing industries, and restaurants. This multi-purpose mutton and beef slicing machine excels in cutting all types of frozen meat, meeting diverse operational needs with precision and reliability.

Features of Frozen Meat Roll Cutting Machine

Frozen meat slicer machine can cut -18°C frozen meat directly.

The meat slice thickness can be adjustable between 0-50mm without stopping the machine

Adopts double guide propulsion system to ensure output uniform meat slices. And the slice accuracy is only to,0imm

Built with a waterproof electricity box, it can protect electrical elements and systems.

The machine is made of stainless steel, easy to clean.

With four silent wheels, the frozen meat slicer machine can be moveable anywhere.
