

Product Name :
Small Chicken Feet Peeling Machine

Product Code :
MM-CHINA11002-0036

Description :

Small Chicken Feet Peeling Machine

Technical Specification :

The is a compact, standalone chicken feet peeling machine built for small-scale poultry processors, independent butcheries, wet market vendors, and startup operations that need to produce clean white paws without committing to a full integrated production line. Weighing under 120 kg and operating on standard single-phase 220V household power, this unit delivers a consistent 150 to 200 kg per hour peeling capacity. Operators simply pre-scald their chicken feet in a separate hot water vessel, then load the batch into the machine's open-top drum. Within 30 to 45 seconds of tumbling, the yellow cuticle is mechanically stripped, and bright white export-appearance paws are ready for chilling and sale.

Batch Capacity: 8 - 12 kg per load
Hourly Output: 150 - 200 kg/h
Motor Power: 1.5 KW
Power Supply: 220V / 50Hz Single-Phase
Drum Interior Diameter: 500 mm
Peeling Element: Food-Grade Rubber Fingers (Shore A 50)
Construction: Stainless Steel
