

Product Name :
Bowl Cutter

Product Code :
MM-CHINA11002-0060

Description :

Bowl Cutter

Technical Specification :

Bowl chopper cutter is key equipment in the meat products process. It works by the high-speed rotation of cutting knife to blend the meat, fat, etc into meat stuffing and muddy flesh, at the same time, it also can stir the meat, some accessories, and water into emulsified products.

Bowl cutting is the answer for better product color, appearance, taste, texture, quality, and higher, which is the exact property our bowl cutter has.

Bowl Chopper Highlights

The spindle nose employs a three-layer sealing design.

High-speed rotation of cutting knife shortens running time, reduces raw materials heating rate, keep products natural color, good texture, high capacity, and long shelf-life.

Panel control and safeguard design, easy and safe to operate.

The free switch of high speed and low speed, improving work efficiency, saving work time, and easing labor intensity.

Widely used for meat, vegetable, seasoning, and marine products processing.
