

Product Name :
Biscuit Making Equipment

Product Code :
MM-CHINA11003-0012

Description :

Biscuit Making Equipment

Technical Specification :

The Biscuit Making Equipment is a fully automatic production system designed for manufacturing a wide range of biscuits, cookies, and crackers.

It integrates dough mixing, sheet forming, molding, baking, cooling, and packaging into a seamless production line, ensuring consistent quality, high efficiency, and hygiene compliance.

This line is suitable for industrial bakeries, confectionery factories, and snack manufacturers seeking to optimize production, reduce labor costs, and maintain product uniformity.

The equipment is designed with modular configuration, allowing flexibility for different biscuit types including:

Butter biscuits

Sandwich cookies

Crackers

Wafer biscuits

Glazed or chocolate-coated cookies
