

Product Name :
Ice Shaver Machine

Product Code :
MM-CHINA11004-005

Description :

Ice Shaver Machine

Technical Specification :

Fully enclosed structure for safe and hygienic operation.
Microcomputer control system allows both fixed-quantity and manual shaving modes.
Durable ABS housing with a transparent acrylic ice storage bucket — modern appearance with clear visibility of operation status.
High output capacity, up to 8kg of shaved ice per minute.
Large ice storage capacity, supports up to 6kg of ice per cycle.
Stable, low-noise performance with fast shaving speed.
Adjustable ice fineness to suit various product requirements.
Compatible with cube ice, block ice, and cylindrical ice.

Semi-Automatic Ice Shaver

Compact design, ideal for smaller businesses or lighter workloads.
Simple operation with manual control for on-demand ice shaving.
Stable and quiet performance, producing up to 4kg of shaved ice per minute.
Adjustable shaving thickness for various uses.
Suitable for multiple ice shapes: cube, block, or cylindrical ice.
