

Product Name :
AM Series Crescent Ice Maker

Product Code :
MM-CHINA11004-006

Description :

AM Series Crescent Ice Maker

Technical Specification :

Superior Construction for Durability & Hygiene

Exterior crafted from stainless steel with special treatment, offering enhanced durability, corrosion resistance, and ease of cleaning.

Elegant arc-shaped sliding door design for space-saving convenience and easy access to ice.

A combination of stainless steel and high-grade engineering plastics for a stylish, professional appearance.

Food-Grade Safety & Insulation Performance

Inner liner made from one-piece PE rotational molding (seamless, leak-proof) with excellent insulation performance.

NSF-certified for food safety, ensuring compliance with international health and hygiene standards.

Smart, Automated Operation

Fully automatic microcomputer control for water intake, ice making, and ice dispensing.

Intelligent alarms for power or water interruptions, automatic recovery without manual intervention.

Unique ice-full detection sensor ensures accurate ice output, unaffected by ambient temperatures.

Energy-Saving & Environmentally Friendly

Equipped with R134A eco-friendly refrigerant for greener, healthier ice production.

Optimized refrigeration systems deliver higher efficiency and stable output with reduced energy consumption.

Automatic Cleaning for Easy Maintenance

Built-in automatic cleaning system significantly reduces maintenance costs, extends machine lifespan, and ensures clearer, more hygienic crescent ice.

Ice Shape:

Crescent Ice (Moon Shape)

Ideal for beverages, displays, food preservation, and commercial catering.
