

Product Name :
SD Square Ice Series Upright Ice Makers

Product Code :
MM-CHINA11004-008

Description :

SD Square Ice Series Upright Ice Makers

Technical Specification :

Constructed with premium stainless steel and engineering plastics, the rounded upper push door design is aesthetically pleasing and effectively conserves space, making it easy to open.

The fully automatic computer intelligent control system ensures safety, convenience, and stable, reliable performance.

The thickness of the ice cubes can be adjusted according to customer needs, making it suitable for various venues that require ice.

The ice cubes are crystal clear, solid, and pure.

The automatic cleaning device design ensures the ice cubes are cleaner.

The LED panel design allows all operations to be performed on the panel, making operation convenient and straight forward.
