

**Product Name :**  
Fruit And Vegetable Canned Production Line

**Product Code :**  
MM-CHINA11005-0017

**Description :**

Fruit And Vegetable Canned Production Line

**Technical Specification :**

Automatic sorting and grading  
Automatic filling and vacuum sealing  
Continuous sterilization  
Automated packaging line  
MES/SCADA data monitoring  
This flexibility ensures you get the optimal cost-performance ratio.

High-Efficiency Washing & Pre-processing  
Professional equipment ensures raw materials are clean and safe:  
Bubble washing machine removes dirt and impurities  
Spray washing system with adjustable pressure  
Roller or conveyor sorting system  
Optical color sorter for premium-grade factories  
This improves hygiene and reduces manual errors.

Capacity: 500–5000 kg/h (customizable)  
Applicable Products: Fruits, vegetables, tropical fruits, tomato products, corn, beans  
Applicable Containers: Tin can, glass jar, bottle, retort pouch  
Filling Accuracy:  $\pm 1\%$   
Sterilization Temperature: 121–135°C  
Power Supply: 220/380V, 50/60Hz

---

Material: stainless steel

Automation Level: Semi-auto / fully automatic (customizable)

Control System: PLC + touch screen
