

Product Name :
Eel Canned Food Production Line

Product Code :
MM-CHINA11005-0020

Description :

Eel Canned Food Production Line

Technical Specification :

Fully automated operation for large-scale eel canning factories
Customizable design for different eel product types (sliced, fillet, cube)
High efficiency and stable output
Ensures food safety and long shelf life
Low maintenance and energy-saving system

Core Processes and Equipment

Eel Pre-Processing System

Automatic Washing and Descaling Machines: Remove impurities and scales from live or thawed eel efficiently.
Eel Cutting and Portioning Machines: Cut eels into precise portions for uniform cooking and can filling.

Benefits:

Consistent size and weight for each portion
Reduced labor and improved hygiene
High accuracy for mass production

Cooking & Marinating Section

Steam Cooking Units / Grilling Machines: Process eel according to recipe — steamed, grilled, or braised.
Marinade & Sauce Mixing Systems: Automatically mix and coat eel with sauces such as teriyaki, soy, or spicy flavor.

Benefits:

Preserves eel texture and flavor
Enhances product quality and consistency
Supports customized recipes and flavor profiles

Automatic Can Filling System

High-Precision Filling Machines: Fill eel and sauces accurately into cans or glass jars.

Multi-format Compatibility: Supports a variety of can sizes (100–500g).

Benefits:

Reduces waste and ensures precise weight control

Compatible with multiple product types and packaging formats

Increases production speed

Seaming & Sealing Section

High-Speed Can Seaming Machines: Provides airtight sealing to prevent contamination and leakage.

Benefits:

Extends product shelf life

Ensures packaging integrity for export markets

Supports both tin cans and aluminum containers

Production Capacity: 500–5000 cans/hour (customized)

Applicable Fish Type: Freshwater eel, marinated eel

Can Sizes: 100–500g (customizable)

Automation Level: Semi-automatic / Fully automatic

Material: Food-grade stainless steel 304/316

Optional Functions: Sauce mixing, online weighing, automatic CIP cleaning
