

Product Name :
Dutch Canned Fish

Product Code :
MM-CHINA11008-002

Description :

Dutch Canned Fish

Technical Specification :

Fish Sorting & Grading Machine: Automatically sorts fish by size and weight for uniform processing.

Washing & Cleaning Conveyor: Removes scales, blood, and impurities with food-grade water systems.

Steam Cooking Tunnel: Pre-cooks fish evenly to preserve texture and flavor.

Cooling Conveyor: Rapidly cools fish after cooking to prepare for can filling.

Automatic Can Filling Machine: Precisely fills pre-cooked fish and sauce into cans with high accuracy.

Vacuum Seaming Machine: Ensures tight sealing to prevent leakage and oxidation.

Retort Sterilizer (Autoclave): Performs high-temperature sterilization for long shelf life.
