

**Product Name :**  
Pancake Production Line

**Product Code :**  
MM-CHINA11005-0026

**Description :**

Pancake Production Line

**Technical Specification :**

**Batter Mixing**

Automated mixing of flour, eggs, milk, sugar, and additives to form a smooth, uniform batter.

**Batter Feeding & Dosing**

Precision dosing system pours batter onto the baking plates with accurate volume control.

**Continuous Baking**

Pancakes are baked on a rotary or tunnel-type oven with adjustable temperature zones.

**Automatic Turning (optional)**

For double-sided pancakes, an automatic flipping device ensures uniform browning.

**Cooling & Stacking**

Cooled by air conveyors; pancakes are automatically stacked and aligned.

**Packaging**

Integrated flow wrapping or vacuum packaging machine seals the final products for freshness.
