

Product Name :
Fruit Roller Sorting Machine

Product Code :
EQUP-MC20088-0003

Description :

Fruit Roller Sorting Machine

Technical Specification :

Product performance characteristics

1. This machine is mainly used for conveying round materials with a diameter larger than 25mm, which is convenient for manual picking and roller control.
2. Made of all stainless steel, in line with food hygiene standards.
3. The anti-card fruit roller conveys to ensure that the fruit rotates while being transported forward, maximally preventing missed inspection and sanitary corners.
4. It can be equipped with a front sprinkler to clean the fruit while the fruit is spinning.
5. Stable operation, low noise, and variable frequency speed regulation.
6. The fruit processing line can be combined with equipment such as hoist and washing machine.

Capacity(T/H)	Power(KW)	Dimension(mm)
1-3	1.1	3000x600x1300
3-5	1.5	4000x800x1300
8-10	3	5000x1000x1300
13-15	4	6000x1200x1300
