

Product Name :
Packing Semi Automatic Filling Machine

Product Code :
EQUP-MC20085-0066

Description :

Packing Semi Automatic Filling Machine

Technical Specification :

Driven Type Electric
Material Stainless Steel
Packaging Type Standard
Power Consumption 1 H.P. 1 Phase 220V 50Hz AC supply
Usage/Application Industrial
Machine Type Semi-Automatic

To satisfy our clients in best and most effective manner, we are providing them superior quality collection of Semi-Automatic Liquid Filling Machine. It is specially designed for small and medium industry to fill high viscosity liquid products such as shampoo, lotions, oils (motor oil and cooking oil), etc. It is available with range from 5 ml to 1000.

This portable & compact design is also offered in various customized designs. This maintenance free model is totally covered with SS sheet. These are known for high usage, corrosion resistance and are highly capable of filling different sorts of bottles and their packaging.
